The Grand Central Hotel has remained open throughout the COVID-19 pandemic and housed the essential workers from The Belfast Hospital Trust. In order to win this contract, many stringent hygiene and social distancing rules were embedded into the hotel procedures.

Now Hastings Hotels are developing their “Peace of Mind” policy. This includes:

- Social distancing measures in all areas of their hotels-from check in, to restaurants, to lifts, to check out.
- Regular disinfection measures in all “touch points” of the guest’s journey.
- A “mask” policy for staff.
- Clean Vent policy.
- A New Room service tray delivery and collection protocol.
- New germ exterminating procedures with room cleaning, and more stringent room servicing systems and laundry procedures in line with government guidance around infection control.
- Hand sanitisers throughout the hotel.
- Revised food handling and serving procedures in restaurants.
- This is an evolving situation, but we have every confidence in recommending Hastings Hotels to our film industry guests.

AC Hotel by Marriot Belfast

Whilst the AC Hotel Belfast remained closed over the peak of the pandemic, they have now chosen to open from 1st June 2020 to support essential workers during the recovery phase from Covid-19 and for all guests from 20th July 2020.

As they welcome you back to their hotel, they are committed to providing a safe environment which includes:

1. Automatic revolving entrance door reducing touch points
2. Social distancing floor markers in public areas
3. Hand sanitizing stations throughout the hotel
4. 24hr screened reception for safe face to face contact
5. Extended hygiene and cleaning regime
6. Gap days between bedroom usage by different guests
7. One way system for breakfast bag collection
8. Room service provided using single use cutlery
9. 3 lifts available with maximum of 1 guest per lift
10. Staircase access to all floors
11. Direct access to riverside walkway for outdoor exercise

Consisting of in-house and outside experts in food and water safety, hygiene and infection prevention, and hotel operations, Marriott's Cleanliness Council is redefining our cleaning and safety standards. We will actively monitor and evolve our solutions to ensure a continued focus on the health and safety of our guests and associates

Holiday Inn Belfast City Centre

40 Hope Street, Belfast. BT12 5EE

Contact Name: Vicky Green

Holiday Inn Belfast has and remains open for workers who need to stay in Belfast for essential sectors including the screen industry. The 4-star hotel is serving freshly made food and beverages including onsite Starbucks to guest's rooms and guests have the peace of mind knowing that Holiday Inn's brand standards of rigorous cleaning and social distancing is maintained through-out.

With years of experience serving the screen industry we are pleased to be able to continue service with the highest health & safety measures in place with IHG's "Clean Promise". Flexible T&C's and food & beverage available 24/7 to accommodate all shoot schedules.

Secure parking is available.

Clayton Hotel Belfast has remained open throughout the COVID-19 pandemic for essential and keyworkers. As part of the Dalata Hotel Group we have implemented our "Keep safe programme":

Keep Safe Programme & New Guest Experience

- Protective screens in place at reception.
- New procedures allowing for online check-in and express check-out.
- Introduction of new state-of-the art technology and additional contactless payment options.
- Securing a range of Personal Protective Equipment ("PPE") for use across all hotels, with particular focus on housekeeping, kitchen and food production and service areas.
- Introduction of enhanced touch point cleaning programme in all public areas.
- Revised cleaning regime in each guestroom and meeting rooms, which will include a bespoke sanitisation treatment device referred to as a 'fogging' system using Anolyte which is an extra layer of sterilisation. This is used in 'Clean Room Technology' throughout the pharmaceutical sector and some hospitals. Anolyte is electro-chemically activated water [ECA*]. This device very effectively deals with viruses and other air and surface contaminants
- A seal tag placed on each guestroom and meeting room doors to indicate full sanitisation.
- Contents of guestrooms/meeting rooms reviewed to remove non-essential, tactile items, such as pen, paper, and bed cushions.
- Restaurants with table service for all meals (no self-service queuing).
- New handling procedures agreed with food suppliers to ensure the highest food hygiene standards while maintaining top quality.
- All public areas, including restaurants and coffee shop, will have practical, effective measures to enable physical distancing.
- Similar physical distancing measures will be implemented in staff-only areas to protect our employees.
- Active monitoring of physical distancing measures will take place to make sure they are working to protect guests and staff.

- Staff throughout the hotel will complete a dedicated training programme to ensure full implementation of each new measure and will follow the public health official advice and guidelines at all times.
- Clear communication with guests before arrival and during their stay to ensure peace of mind and a relaxed, enjoyable experience.

****ECA is produced by the electrolysis of ordinary tap water containing dissolved sodium chloride into Hypochlorous acid – which is a very efficient disinfecting solution.***
